ANNUAL REPORT

Indiana State Soldiers' Home

FOR THE

YEAR ENDING OCTOBER 31, 1902.

TO THE GOVERNOR.

INDIANAPOLIS:

WM. B. BURFORD, CONTRACTOR FOR STATE PRINTING AND BINDING.
1902.

506065

THE STATE OF INDIANA,
EXECUTIVE DEPARTMENT,
INDIANAPOLIS, November 25, 1902. } }

Received by the Governor, examined and referred to the Auditor of State for verification of the financial statement.

OFFICE OF AUDITOR OF STATE,
INDIANAPOLIS, November 26, 1902. } }

The within report, so far as the same relates to moneys drawn from the State Treasury, has been examined and found correct.

W. H. HART,
Auditor of State.

November 26, 1902.

Returned by the Auditor of State, with above certificate, and transmitted to Secretary of State for publication, upon the order of the Board of Commissioners of Public Printing and Binding.

CHAS. E. WILSON,
Private Secretary.

Filed in the office of the Secretary of State of the State of Indiana, November 26, 1902.

UNION B. HUNT,
Secretary of State.

Received the within report and delivered to the printer this 26th day of November, 1902.

THOS. J. CARTER,
Clerk Printing Bureau.

BOARD OF TRUSTEES' REPORT.

INDIANA STATE SOLDIERS' HOME,

October 31, 1902.

HON. WINFIELD T. DURBIN,

Governor of Indiana:

SIR—The Board of Trfustees of the Indiana State Soldiers' Home respectfully submit herewith their annual report for the year ending the 31st day of October, 1902:

BOARD OF TRUSTEES.

Since our report of October 31, 1901, there has been no change as to the membership of the Board of Trustees, save and except that Trustee William S. Haggard, having served the unexpired term of Trustee John Levering, deceased, was reappointed and entered upon a new term as Trustee, February 23, 1902. The Board, as now constituted and organized, is as follows:

JAMES R. CARNAHAN, President, Indianapolis.

ISAIAH B. McDONALD, Secretary, Columbia City.

ALEXANDER M. SCOTT, Treasurer, Ladoga.

LOUIS B. FULWEILER, Peru.

WILLIAM S. HAGGARD, Lafayette.

REPORTS.

The following reports are herewith submitted:

1. Condition of the Home.
2. Receipts and Expenditures, year ending October 31, 1902.
3. Membership.
4. Condition and care of members.

First. Under the head of "Condition of the Home" we include also the Management of the Home. The condition of the buildings will be first considered: The buildings erected under specific

appropriations by the State of Indiana consist of the Adjutant's office and residence combined.

The Commissary building and store house.

The Old People's Home, used exclusively as apartments for the very old married couples, with dining-room and kitchen.

The Old Men's Home, for the most feeble of the very old men.

The Assembly Hall, for religious services, lectures, etc., with a library room and amusement hall in the basement.

The Power House, in which is the laundry and electric light plant.

The Hospital.

The Pumping Station.

These buildings are all of brick and stone, and now in good repair. During the year just closing we have been compelled to purchase and install a new and larger dynamo for the electric light plant. The Board was able to exchange one of the old dynamos in part payment for the new dynamo, reducing the net cost of the new dynamo to \$1,350.00. We were also forced to purchase quite a good deal of new machinery for the laundry plant and increase its capacity to meet the greatly increased demands upon it from the increased membership of the Home. Both the electric plant and the laundry have been much improved, both in increased ability to meet our requirements and to do more efficient work.

The Legislature of 1901 made an appropriation of thirty thousand dollars to enlarge the hospital building to a capacity of one hundred beds. This appropriation was not available until July 1, 1901. In the meantime the Board of Trustees caused competitive plans to be prepared for the improvement and enlargement of this building. These plans were without expense to the State. Bids for the erection and construction of the new structure were asked for through advertisements therefor in the regular manner. The first bids exceeded the amount of the appropriation, and we changed and remodeled the plans, chiefly in the inner finish of the building, but not materially changing the general plan as originally made, preserving, however, the capacity originally intended. The building was completed and accepted from the contractors at the May, 1902, meeting of the Board. We were enabled to partition the new addition into separate bedrooms for patients, through the voluntary and generous donations of the officers and members of

the Home. The building as now constructed with its separate rooms for patients, and with rooms disconnected from those used by ordinary patients, for tuberculosis and contagious diseases, reception room for morning sick call, operating rooms, recitation or lecture room for nurses, dispensary room, two kitchens, one a diet kitchen, dining-rooms, rooms for the nurses, and a sufficient number of bathrooms and an excellent equipment for such an institution in every respect, makes it a model hospital.

The cottages erected by the Grand Army of the Republic, the Women's Relief Corps, the Ladies of the Grand Army, and by the counties, now need paint, and during the next year should all be repainted. The sanitary condition of the Home is most excellent. This is most clearly shown by the fact that there has been no sickness from local causes or conditions. The cases of sickness or disease with which the Medical Department has to deal are found to be for the most part chronic cases of long standing before the parties came to the Home. The water supply is not only abundant for all needs and requirements of the Home, but it is of most excellent quality.

The Commissary Department is well managed, and while there is an abundant food supply, there has been no waste or extravagance. The population of the Home has been well supplied with the best grades of substantial and healthful food.

The Medical Department is well managed by the Surgeon and a thoroughly efficient corps of trained nurses. The training school for nurses, under the training and management of Surgeon Martin has been a great blessing to the old, sick and decrepit soldiers and their wives, and the old widows of deceased soldiers that have been brought to the Home. It would be almost, if not altogether, an impossibility to care for these old and helpless people without our trained nurses. We file herewith and call your especial attention thereto, the annual report of Surgeon John A. Martin, Exhibit "B." This report will furnish very valuable information as to the duties and responsibilities devolving upon the Medical Department, and from it some idea may be had as to the duties to be performed, and which this Board believes have been well performed.

The condition of our grounds, walks and drives needs much improvement, and the improvement would have been made before

this but for the fact that the Board of Trustees has not had the money wherewith to purchase the materials and have the work done.

In connection with our report of the condition of the Home, attention is called to the separate report to be made to you and the legislative committee concerning the supplies on hand in the Commissary and Quartermaster's Department, together with the live stock, vehicles, etc., with values thereof Oct. 31, 1902. Under this head also attention is called to—

INSURANCE

As shown in Adjutant's report.

RECEIPTS AND EXPENDITURES.

Under this head, attention is called to Exhibit "C" herewith and especially as to the summary of receipts and expenditures is attention invited. These are the receipts for maintenance, and expenditures on that account, and include expenses of all and every kind in connection with the management of the Home, to wit: Food supplies, administration, clothing, fuel repairs, minor improvements, etc., everything that required the expenditure of money, fully itemized further on in said Exhibit "C." The total amount received from all sources, including the amount on hand Oct. 31, 1901, was \$92,706.92. The foregoing amount of receipts were applied as follows:

Of the amount of cash on hand Oct. 31, 1901, the sum of \$234.40 was received for rents, etc., termed earnings; this belonged to the State of Indiana, and was turned over to the State Nov. 21, 1901. After payment of the above sum to the Auditor of State there was left a balance of \$475.67 of the cash balance reported Oct. 31, 1901, belonging to the Maintenance Fund of the Home. The Maintenance Fund for the year ending Oct. 31, 1902, was then as follows:

MAINTENANCE FUND.

Balance from cash October 31, 1901.....	\$475 67
Amount from Auditor of State (per capita).....	87,313 74
Pension fund	4,503 85
Refund from clothing.....	12 10
 Total Maintenance Fund for year ending October 31, 1902.	 \$92,305 36

Receipts, payable to State of Indiana, earnings:	
Rents for semi-annual term ending April 30, 1902.....	\$60 00
Rents for semi-annual term ending October 31, 1902.....	57 16
Sale of dirt for semi-annual term ending October 31, 1902.....	50 00
 Total	 \$167 16

The foregoing amount of rents, etc., \$167.16 has all been turned over to the State of Indiana with Semiannual Report April 30, 1902, and Oct. 25, 1902, as required by law, and for which the Treasurer of this Board holds the "Quietus" of the Auditor of State. The total amount of the above Maintenance Fund represents the funds from which all of the expenses of the Home of whatsoever kind were to be paid, save and except the salaries of the Commandant and Adjutant, and these latter do not go into the funds for which the management of the Home is accountable.

EXPENDITURES.

The total expenditures of the Home, as shown by the Adjutant's Financial Report, Exhibit "C" herewith, were \$91,271.41. Balance in Maintenance Fund Oct. 31, 1902, \$1,044.95. This balance will go into the Maintenance Fund for payment of bills rendered for October, payable in November, 1902, and should not be counted as expense for the year closing Oct. 31, 1902.

COST PER CAPITA.

The average daily membership present during the year ending Oct. 31, 1902, was men, 330; women, 226; employes (civilian), 27; total average daily present, 583. Per capita cost for the year \$156.55 $\frac{1}{3}$.

ANNUAL COST PER CAPITA.

The amount received from the Auditor of State represents the amount paid by the State of Indiana, and all that was paid by the State for maintenance, to wit: \$87,313.74.

Divide the last named sum received from the State by the average number daily present, 583, and the per capita cost to the State on the face of the report would be \$148.05. The actual cost to the

State is much less than this last named sum, for the reason that the United States reimburses the State of Indiana to the amount of one hundred dollars per year for each soldier that is received into the Home and cared for by the State.

There has been paid into the Treasury of the State of Indiana by the United States during the fiscal year to reimburse the State in part for the care of the old veterans the sum of \$25,841.19. There is yet due from the Government two months' appropriation for this year. Deduct this Government aid from the amount paid by the State, also deduct the further sum paid into the State by the Home as earnings, \$401.56, making a total reduction, or reimbursement, of \$26,242.75, and we find that the actual expense to the State was \$61,070.99. This reduces the per capita cost borne by the State to \$104.75. If the salary of the Commandant, \$1,200, and the salary of the Adjutant, \$900, making \$2,100, be added, then there is a total expenditure by the State of \$63,572.55, a per capita cost of \$109.04³. In this per capita cost to the State the amount of "Pension Fund" received has not been counted, for the reason that not one cent of this fund comes from, or is paid by, the State of Indiana. We report the actual per capita cost to the State of Indiana. It does cost more to support the Home, but that cost is not paid by the State. It is the pension fund contributed by the members and the appropriations from the United States that reduces the expense to the State. It should be borne in mind that the Indiana State Soldiers' Home not only cares for the "old soldier," but the State is wisely and humanely caring for the wives and also the widows of ex-soldiers, for whom the General Government renders to the State no assistance. This fact of necessity makes the average per capita cost to the State higher than in Soldiers' Homes where no women are admitted. If none but veterans—ex-soldiers—were received, the cost to the State of Indiana under the present law could not exceed fifty dollars per capita, nor does it now cost the State of Indiana more than fifty dollars. From the Maintenance Fund every item of expense in and about the Home is paid. Examine the itemized expenditures Exhibit "C." We shall speak further of the matter of expense in connection with the subject "Care of Members." Attention is called to the matter of "Insurance," and also to the one item "Fuel," as set forth in the exhibits herewith.

MEMBEBSHIP.

We file herewith the population report for the year ending October 31, 1902 (see page 35):

Number of members October 31, 1902:

Men	424
Women	335
Total members	759
Civilian officers and employes.....	30
Total members and civilian employes.....	789
Of the number of women there are:	
Widows	113
Wives	212
Deserted wives	10
Average age of men.....	years 63, months 8
Average age of women.....	years 60, months 8
Average daily attendance of members during year of 1902.....	556
Average daily attendance of members during year of 1901.....	497
Net gain in attendance of members for 1902.....	59

This average daily attendance will undoubtedly increase year by year for some years to come.

CONDITION AND CARE OF MEMBERS.

The physical condition of the men and women gathered in this Home must, as each year goes by, grow worse and worse. This in the very nature of things can not be otherwise. It has been forty-one years since many of these ex-soldiers went into service. It has been over thirty-seven years since the youngest of them was mustered into the United States service. The results of hard army service, even not taking into account the natural infirmities of old age, are now telling with great effect upon these men. They and the wives of these men will need each year more and more care—more and more nursing. The ex-soldiers and their wives who were able to render some service in the Home when they first came, are growing less and less in numbers, and it will not be many months until all the work in and about the Home will have to be done by younger men and women, who saw no army life. This is already true in the hospital, where we have been compelled to take young women as nurses. Our Training School for Nurses is now furnishing our hospital with a most efficient and faithful corps of young

women in the care of the old people that must be in that department. The old army physician and surgeon must give place to his younger professional brother. All of the matters requiring labor of mind and body, and both are required here, call for stronger limbs, more vigorous life than is now possessed by the old soldier, or his wife, and this will, and does now, require additional expense, additional comforts and care.

FOOD SUPPLIES.

In the purchase of food supplies we are finding month by month additional articles must be added to the regular rations, of what might be termed delicacies and nourishment. These special supplies are needed in the hospital. In the purchase of all supplies for food, a special effort is made to procure the very best and most wholesome articles. This is not extravagance, and although we may perhaps pay a little more for flour or a little higher price for meats, than some other institutions, it must be borne in mind that those for whom we buy are old; they are decrepit; they have not the vigor and strength of young manhood or womanhood. The very exigencies of the case demand this change of food. We have provided means and appliances especially for the preparation of this food and are doing all that can be done with the means at hand, in the way of funds, to care for all who need special care. We furnish herewith sample bills of fare for the general dining-room. From these sample bills of fare a good understanding may be had of the character or kind of food furnished winter and summer. Report of Commandant, Exhibit "A," herewith.

OFFICERS.

In connection with the management of this Home this Board wishes to bear testimony to the faithful service rendered by the officers of the Home. In this we do not reflect on any of the under officers and employes of the Home, when we say that special mention is due Colonel G. R. Stormont, Adjutant D. B. Kehler and Matron Laura E. Ingersoll.

The duties of each of these officers is more arduous than can be imagined by any who are not thoroughly conversant with such an institution. These three officers are called upon for duty at all hours of the day or night. They are responsible for the care of

our people. They must have a constant watchfulness for food, for clothing, for fuel, for the care of the buildings, for everything from the greatest to the smallest detail—even to the supervision of the daily bills of fare herewith. Their work has been well done; it has been done cheerfully; it has been done earnestly.

BILLS OF FARE.

Sunday, February 16, 1902.

BREAKFAST.

Oat Meal, Fried Sausage, Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Roast Pork Loins, Brown Gravy, Mashed Potatoes, String Beans, Apple Pie, Bread, Butter, Tea, Coffee.

SUPPER.

Salmon, Hominy, Cheese, Canned Apples, Bread, Butter, Tea, Coffee.

Monday, February 17, 1902.

BREAKFAST.

Oat Flake, Bacon, Potatoes (jackets on), Bread, Butter, Tea, Coffee.

DINNER.

Pickle Pork, Boiled Cabbage, Stewed Tomatoes, Potatoes, Bread, Butter, Tea, Coffee.

SUPPER.

Hash, Rice, Stewed Prunes, Rusk Bread, Butter, Tea, Coffee.

Tuesday, February 18, 1902.

BREAKFAST.

Rolled Oats, Sausage, Stewed Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Roast Beef, Dressing, Browned Potatoes, Corn, String Beans, Bread, Butter, Tea, Coffee.

SUPPER.

Beef Soup, Hominy, Stewed Peaches, Bread, Butter, Tea, Coffee.

Wednesday, February 19, 1902.

BREAKFAST.

Oat Meal, Bacon, Gravy, Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Boiled Ham, Mashed Potatoes, Stewed Corn, Cold Tomatoes, Bread, Butter, Tea, Coffee.

SUPPER.

Beef Hash, Rice, Fruit, Biscuit, Bread, Butter, Tea, Coffee.

Thursday, February 20, 1902.

BREAKFAST.

Rolled Oats, Sausage, Boiled Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Corned Beef, Boiled Cabbage, Potatoes, Corn, Apple Pie, Bread, Butter, Tea, Coffee.

SUPPER.

Hominy, Cold Tomatoes, Stewed Peaches, Bread, Butter, Tea, Coffee.

Friday, February 21, 1902.

BREAKFAST.

Oat Meal, Breakfast Bacon, Gravy, Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Fried White Fish, Potatoes, Navy Beans, Bread Pudding, Bread, Butter, Tea, Coffee.

SUPPER.

Vegetable Soup, Cold Beans (Kidney), Corn Bread, Fruit, Bread, Butter, Tea, Coffee.

Saturday, February 22, 1902.

BREAKFAST.

Wheat Flake, Bacon, Boiled Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Roast Beef, Dumplings, Mashed Potatoes, String Beans, Bread, Butter, Tea, Coffee.

SUPPER.

Beef Hash, Hominy, Stewed Apples, Bread, Butter, Tea, Coffee.

Friday, August 15, 1902.

BREAKFAST.

Oat Meal, Breakfast Bacon, Brown Gravy, Potatoes, Bread, Butter, Coffee.

DINNER.

Fried Fish, Dressing, Mashed Potatoes, Stewed Tomatoes, Bread, Butter, Tea, Coffee.

SUPPER.

Baked Beans, Hominy, Fruit, Biscuit, Bread, Butter, Tea, Coffee.

Saturday, August 16, 1902.

BREAKFAST.

Wheat Flake, Bacon, Boiled Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Pickled Pork, Beans, Stewed Potatoes, Bread, Butter, Tea, Coffee.

SUPPER.

Beef Hash, Rice, Stewed Prunes, Bread, Butter, Tea, Coffee.

Sunday, August 17, 1902.

BREAKFAST.

Oat Flake, Fried Sausage, Stewed Potatoes, Nutmeg Melon, Bread, Butter, Coffee.

DINNER.

Roast Beef, Mashed Potatoes, Turnips, Green Corn, Apple Pie, Bread, Butter, Tea, Coffee.

SUPPER.

Pigs' Feet, Stewed Peaches, Cheese, Crackers, Bread, Butter, Tea, Coffee.

Monday, August 18, 1902.

BREAKFAST.

Wheat Flake, Fried Ham, Gravy, Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Boiled Ham, Potatoes, Tomatoes (cold), Navy Beans, Bread, Butter, Tea, Coffee.

SUPPER.

Hash, Cold Beans, Stewed Apples, Buns, Bread, Butter, Tea, Coffee.

Tuesday, August 19, 1902.

BREAKFAST.

Rolled Oats, Breakfast Bacon, Gravy, Boiled Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Roast Beef, Browned Potatoes, Bread Pudding, Boiled Cabbage, Bread, Butter, Tea, Coffee.

SUPPER.

Beef Stew, Hominy, Fruit, Bread, Butter, Tea, Coffee.

Wednesday, August 20, 1902.

BREAKFAST.

Oat Meal, Fried Sausage, Stewed Potatoes, Bread, Butter, Tea, Coffee.

DINNER.

Pickle Pork, String Beans, Potatoes, Stewed Tomatoes, Bread, Butter, Tea, Coffee.

SUPPER.

Baked Beans, Rice with Raisins, Prunes, Biscuit, Bread, Butter, Tea, Coffee.

Thursday, August 21, 1902.

BREAKFAST.

Oat Flake, Bacon and Liver, Potatoes (jackets on), Bread, Butter, Tea, Coffee.

DINNER.

Boiled Beef, Potatoes, String Beans, Tomatoes, Pie Plant Pie, Bread, Butter, Tea, Coffee.

SUPPER.

Hash, Rice, Stewed Peaches, Bread, Butter, Tea, Coffee.

In connection with our report concerning the "Care of Members," we wish to call attention to the reports of Major and Surgeon John A. Martin, Exhibit "B," herewith. For yet further particulars concerning the affairs of this Home, the care of its members, etc., careful attention is called to the reports of the officers in charge of its daily management.

RECOMMENDATIONS.

The Act of the Legislature establishing the Indiana State Soldiers' Home makes it the duty of the Board of Trustees to make such recommendations from time to time as, in the judgment of said Board, may be deemed best for the interests of the Home. This Board recommends that appropriations be made by the next Legislature for several purposes which are hereinafter named.

CENTRAL HEATING PLANT.

At present all of the buildings erected by the State of Indiana and the cottages erected by donations are heated separately. The Hospital, the Old People's Home, the Old Men's Home and the General Dining-room and Widows' Home, are heated by steam, each building having its own separate plant. The Adjutant's and Quartermaster's building, the Assembly Hall and Library and the Administration Building are each heated by hot air furnace. Two of the County Cottages are heated by hot air furnaces, all of the remainder of the cottages being heated by stoves, requiring a stove in each room. The coal burned in the cottages is anthracite, for the reason that the greatest possible care must be used to prevent setting fire to the buildings, and there is greater safety and security in the use of hard coal than from the use of any other kind of fuel. The expense for fuel is one of the greatest that has to be borne by the Home management. The expense for fuel alone during the year, as seen from the report of expenditures herewith was \$16,676.95. To the cost of the fuel must be added the cost of employing the necessary men to manage the furnaces and boilers. These dollars and cents represent only the cost of heating. A more important subject than the cost in dollars and cents to be considered is the constant and abiding menace of a conflagration, and with a conflagration the inevitable loss of human lives. The chief thing now to be considered is the peace and safety of the old soldiers and the old women gathered in this institution. The danger from fire should be reduced to the lowest possible minimum, the greatest protection to life and limb should be given; this Board believes both of these objects could best be secured by one thoroughly equipped central heating plant. This heating plant would reduce the danger from fire, would reduce the cost of insurance

that must be carried on all our buildings. With such a heating plant there could be a great saving in cutting off the number of employes now required to attend the furnaces and boilers, a great saving in the cost of fuel, a saving in the amount required in keeping in repair so many furnaces and boilers, and a central heating plant by such saving in dollars and cents would pay for itself inside of four years. There is much of the equipment that the Home now has that could be utilized in the installing of a central heating plant. This Board will endeavor to furnish plans for such a central heating plant for either hot water or steam heating; if possible, for both. These plans are to be furnished in time for their presentation to the Legislature for its consideration and action. This subject, which we feel is of vital importance to the State, rises above all questions of cost, as it is of most vital importance to the welfare and lives of these old, crippled and feeble wards of the State. It is believed that such a plant could be thoroughly and completely installed at a cost not to exceed fifty thousand dollars. The loss of even one life, that might have been saved and could not by reason of the State failing to fully safeguard each and every man and woman there, would be of much greater value than all the money that could be invested in the plant. The winter of 1903-1904 should see a central heating plant for the Indiana State Soldiers' Home.

ADDITIONAL BUILDINGS.

Greater accommodations in the way of new buildings are needed for the constantly increasing membership of this Home. There certainly will be for the next ten years at least, an increasing demand for admission to this Home. The soldiers of the "Civil War" are more and more needing assistance in their declining years. Beside these there is now another body of ex-soldiers of the United States, citizens of Indiana, native sons of this great commonwealth, and they are already seeking admission and are being cared for. These younger soldiers are passing through something of the same experience and are now feeling the effects of disease from heat and exposure in service as their fathers and older comrades have before them. These younger soldiers who need the care of such an institution should have it. There is great need of

a building for the very old widows. There is not sufficient room for them in any one of the buildings now on the grounds. A building large enough to accommodate one hundred old widows should be built.

IMPROVEMENTS.

There should be an appropriation of fifteen thousand dollars for repairs and permanent improvements, as follows: For walk along every street on the Home grounds; for more roadways, or at least a roadway with a greatly reduced grade leading up the hill to the Home. This appropriation for repairs should be large enough to repair and repaint every one of the cottages and frame buildings on the Home grounds. The Board of Trustees of the Indiana State Soldiers' Home has never asked for appropriations without having the full conviction that such appropriations were needed. The need for the buildings and improvements named in this report can not be doubted or called in question by any one who will thoroughly examine the situation.

Respectfully submitted,

JAMES R. CARNAHAN,
ISAIAH B. McDONALD,
LOUIS B. FULWEILER,
ALEXANDER M. SCOTT,
WILLIAM S. HAGGARD,

Trustees.

EXHIBIT "A."

COMMANDANT'S REPORT.

To the Board of Trustees, Indiana State Soldiers' Home:

Gentlemen—I have the honor to submit my annual report for the year ending October 31, 1902, with the accompanying reports of the Adjutant and Surgeon. Your attention is respectfully called to these reports for full information as to the membership of the Home, the receipts and disbursements for the year, the operations of the hospital department and the general details of the administration of the Home for the year.

As to the general order and discipline of the Home it affords me pleasure to say that there has been a general improvement, and that it is now as near to the ideal as can reasonably be expected in an institution of this kind. Drinking and drunkenness, the bane of all Soldiers' Homes, has been reduced to the minimum in this institution. Instead of being the rule it is an exception to see a drunken man in the Indiana State Soldiers' Home. We still have those with us upon whom the habits of a lifetime have become so fixed that it is impossible for them to avoid the temptation to indulge in drink whenever the opportunity is offered. But it is gratifying to observe that even among this class the lapses are infrequent, and that there is a disposition to so conduct themselves that they will not transgress the rules of the Home.

There has been a steady increase in applications for admission to membership in the Home during the past year, and numerous inquiries in regard to admission are coming in daily from all parts of the State. Nearly all these inquiries and applications now come from old veterans and their wives, and from soldiers' widows, who have made an honest and earnest effort to maintain themselves without asking the aid of either State or Government. But on account of disease, or infirmities of age, they find themselves unable to continue the struggle longer, without deprivation and suffering. They had no thought of looking to the Soldiers' Home for an abiding place while they continued in health, and were able to follow their avocations of life. Now they are turning to us and

asking if there is a home here for them. Certainly there ought to be room here sufficient to accommodate all this worthy class. But our capacity is limited, and we are compelled to keep a large waiting list, composed of worthy and deserving veterans, their wives and widows, because of the crowded condition of the Home. This is especially true in the winter season, a time when there is the greatest need of shelter and protection for them. Our great need is more buildings and more room.

I fully appreciate the uniform courtesy and kindness shown me by members of the Board of Trustees, and make grateful acknowledgment of their assistance and co-operation in the administration of affairs of the Home.

The officers associated with me in the management of the Home have shown their fitness for the work required of them in their respective departments, and have rendered faithful and efficient service in every particular. Whatever of success there has been in the effort to advance the institution to a higher standard is in a large measure due to the efficiency and faithfulness of the officers and heads of departments associated with me in the work.

Very respectfully,

G. R. STORMONT,

Commandant.

October 31, 1902.

EXHIBIT "B."

SURGEON'S REPORT.

LAFAYETTE, IND., October 31, 1902.

To Col. G. R. Stormont, *Commandant of Indiana State Soldiers' Home:*

Sir—I have the honor to report to you conduct and statistics of the Medical Department for the year ending October 31, 1902, and to set forth the present and future needs of this Department.

OFFICERS.

J. A. MARTIN, M. D., Chief Surgeon.

T. C. SARGENT, M. D., Assistant Surgeon.

MISS F. MARTIN, Superintendent of Nurses.

Florence Martin, Supt. of Nurses.

At the last General Assembly an appropriation was made for the erection of an addition to the Hospital. This addition was completed and accepted and we are now able to accommodate one hundred (100) patients.

That the judgment of the Legislature was well timed is clearly shown by a comparison of the statistics of last year and this. The average daily number of hospital patients for October, 1901, was forty-one (41), while the daily average for October, 1902, was sixty-three (63), an increase of fifty (50) per cent. during one year. Owing to the very high prices of building material at the time of letting the contract for the Hospital addition and the need for space, a number of comforts and sanitary necessities of the Hospital were of necessity omitted. In order to overcome some of these shortcomings and with the approval of the Trustees and yourself, I personally solicited subscriptions from the officers, employes and members of the Home. Of this subscription and its disposition I herewith make report.

The heading of the subscription was as follows:

The undersigned, members of the Indiana State Soldiers' Home, accept the privilege of contributing the sum opposite their name to be expended in the addition to the Indiana State Soldiers' Home Hospital and its equipment.

For this voluntary contribution we shall expect no partiality whatever.

We hereby authorize the Adjutant of the Home to deduct said amount from our November pension, and to keep same on deposit for expenditures, authorized by the Surgeon.

A full report of this subscription and its expenditures will be read in all the dining-rooms at some time during the winter, and the same will be included in the annual report of the Surgeon.

Total number of subscribers.....	214
Number of subscriptions collected	196
Number of subscriptions uncollected.....	18
Total amount subscribed.....	\$518 50
Total amount collected.....	463 50
Total amount uncollected.....	55 00

EXPENDITURES.

To general contractor for extra partitions—dividing large wards into rooms, etc	\$417 70
One water still.....	5 00
Five stone jars.....	2 70
Extra plumbing	25 50
 Total expenditures to date.....	\$450 90
Balance	12 60

I would recommend that you bring to the attention of the coming Legislature the need of a special hospital appropriation to the amount of ten thousand dollars to be expended for porches, including a glassed-in or sun porch, off the tubercular department, tiling of kitchen, dining-room, bathrooms and operative department; a system of forced ventilation and heat regulation, and additional Hospital furnishings.

Since taking charge of the Medical Department I have become more and more impressed with the importance of intelligent and skilled nursing in the class of cases which are most prominent here—a class which is to be more relieved and comforted by attentive nursing than by any forms of medication.

The system of nursing which was inaugurated here about three years ago upon my recommendation is now well past the experimental stage and is giving satisfaction in every way.

The Indianapolis Association of Trained Nurses were this summer invited to inspect our nurse system as to competency and efficiency. A delegation visited our Hospital and made report to their association. In this report it was recommended that the graduates from our school of nursing be considered eligible to membership in the Indianapolis Association of Trained Nurses. This recommendation was accepted.

I desire to take this opportunity to express my thanks to the Assistant Surgeon and to the nurses for the efficient service they have rendered me and the comfort they have given to the disabled and aged soldiers, their wives and widows, and also to thank the lecturers and consultant staffs for the valuable part they have contributed toward the relief of the suffering soldiers.

Respectfully submitted,

JOHN A. MARTIN,

Surgeon.
